LWG Penalty Ltr 04102013 ver2.pdf

•Bottom of Form

Hello Web Team,

This is an early notice request for a document posting. I would like to have the attached document added to the Portland Harbor site on Thursday (April 18) or after. **Please do not post before Thursday.**

It should be placed in the section below. Thanks for your assistance.

Alanna

We received the draft feasibility study from the Lower Willamette Group in March 2012. The study describes various options for cleaning up Portland Harbor. We held public information sessions on the draft Feasibility Study in April and May 2012.

We recently conducted technical review of the study and submitted comments to the Lower Willamette Group available for download below. After revisions have been completed, we will write a Proposed Plan. The Proposed Plan will summarize the cleanup alternatives and propose a preferred plan for cleaning up contaminated sediment in Portland Harbor. We anticipate having the Proposed Plan available in late 2014.
